25 May 2004

## Substance Abuse Office

### SUBJECT: Commander's Notification for Drug and Alcohol Test Positives

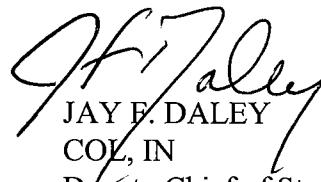

1. Reference memorandum, DAJA-CLD, 5 Sep. 03, subject: Legal Review of 1) Under 25 drug testing and 2) Use of electronic copy of DD 2624.
2. Effective 15 May 2004, the Forensic Toxicology Drug Testing Laboratory (FTDTL) at Fort Meade and Tripler Army Medical Command will no longer mail a certified copy of the DD Form 2624 for positive results reporting. Units may use a copy of the electronic web portal results in conjunction with a local copy of the DD Form 2624 (i.e. DD Form 2624 maintained by the Substance Abuse Office that shows chain of custody up until the time the specimen is shipped to the FTDTL).
3. If a certified copy of the DD Form 2624 is required (example: pending courts martial), requests should be forwarded via facsimile to the supporting FTDTL (Commander, FTDTL Ft Meade, facsimile 301-677-3714/Commander, TAMC FTDTL, facsimile 808-834-3609. The request must be from the commander, trial counsel or their designee via a signed memorandum on official letterhead, requesting a certified copy of the DD Form 2624 along with the reason the copy is needed.
4. When a soldier in the Massachusetts Army National Guard tests positive for a substance that requires a commander to be notified, the unit commander will receive a copy of the DD Form 2624, showing the chain of custody up to the U.S. Postal Service (or other approved carrier), an electronic copy of the certified results from the laboratory, and the notification letter from the Substance Abuse Office. Intermediate commands and higher will see no change to the notification process.
5. The Department of the Army, Office of The Judge Advocate General, has determined that the electronic copy of the official test results is all that is needed to take administrative action.

Criminal Law Division

5 September 2003

**MEMORANDUM FOR LTC Mark Bruins, Headquarters, U.S. Army Medical Command,  
Fort Sam Houston, Texas 78234**

**SUBJECT: Legal Review of 1) Under 25 drug testing and 2) Use of electronic copy of  
DD 2624**

**1. Purpose:** To publish the informal opinion of the Criminal Law Division, Office of the Judge Advocate General, as to whether units can randomly select soldiers for drug testing from a group of soldiers under the age of 25 and whether the drug testing laboratory can send units an electronic copy of the DD Form 2624 in lieu of the true original copy.

**2. Conclusion:**

a. Commanders may not segregate their units by age and then employ a random selection process for choosing soldiers from that group for drug testing.

b. Drug testing laboratories may send units electronic copies of the DD Form 2624 instead of the original document so long as the original document is available for use at courts-martial.

**3. Discussion:**

a. Unit drug testing is permissible under MRE 313(b) as an inspection designed to ensure the "security, military fitness, or good order of the unit..." This exception to the probable cause requirement of the 4th Amendment to the Constitution is justified because the inspection is not conducted with the primary purpose of obtaining evidence for use at a court-martial or other proceedings. The justification is established by implementing a random process for selecting soldiers for drug testing.<sup>1</sup>

---

<sup>1</sup> See *United States v. Bickel*, 30 M.J. 277,286 (CMA 1990)"...neither Mil.R.Evid. 313 nor the Fourth Amendment permits a military commander to pick and choose the members of his unit who will be tested for drugs and then to use the resulting evidence to obtain a criminal conviction. Instead, the testing must be performed on a nondiscriminatory basis pursuant to an established policy or guideline that will eliminate the opportunity for arbitrariness by the person performing the tests."

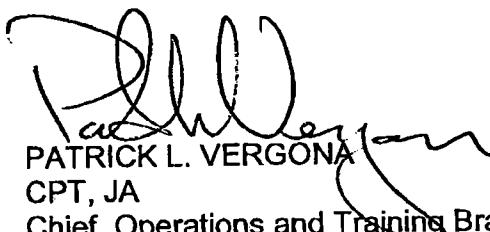

DAJA-CLD

SUBJECT: Legal Review of 1) Under 25 drug testing and 2) Use of electronic copy of  
DD 2624

b. The reason provided for segregating units by age is an acknowledgment that soldiers under the age of 25 test positive at a higher rate than those soldiers over 25 years of age. Segregating a unit in this manner is a clear indication of the belief by the command that there is an expectation to catch drug users by testing this identified group. This "expectation" converts the inspection into a search for evidence for use at court-martial or other disciplinary proceedings. This type of division would be viewed no differently than testing only members of a certain minority group based on a statistical analysis that members of that group tend to test positive for drugs or conducting searches of the barracks rooms of members of a minority group on the belief that members of that group are likely to possess contraband items. Such a testing scheme is a virtual minefield of legal objections. While using this scheme to conduct unit urinalysis may deter use, the results of such testing would not be admissible in court.

c. Use of the electronic version of the DD Form 2624 in lieu of sending units the original documents is permissible. Copies of the DD Form 2624 can be used in cases of nonjudicial punishment and administrative actions. The original document will be required for courts-martial.

4. POC is the undersigned at (703) 588-6755.

PATRICK L. VERGONA

12. CHAIN OF CUSTODY (LINE 11).				
a. DATE - Date of collection/shipment.				
b. RELEASED BY - Signature and printed or typewritten name of the urinalysis coordinator having custody of the samples.				
c. RECEIVED BY - Use only if physical change of custody is occurring prior to shipment.				
d. PURPOSE OF CHANGE/REMARK - Specify the mode of accountable transportation/system utilized to ship specimens to the lab.				
NOTE: If/when custody of specimens changes other than for shipment (unless hand carried to lab), each change of custody requires line number signatures in the (b) RELEASED BY and (c) RECEIVED BY blocks to document change in custody with comment in block (d). If a continuation sheet is necessary, it must contain information/signatures of blocks (a) - (d).				
13. DAMAGE TO SHIPPING CONTAINER/DISCREPANCIES
